

Future Data Center list pricing tables

The tables below reflect the new pricing for existing subscriptions on list pricing plans, effective February 17, 2026 PT.

Annual pricing is based on your user tier.

Upgrading your Data Center subscription user tier means moving from one user tier to another. For example, upgrading from 500 users to 1,000 users results in a total of 1,000 users, not 1,500 users. Learn more about [Data Center licensing](#).

*Academic pricing for renewals, upgrades, downgrades, or new subscriptions will continue to reflect 50% off of the new prices.
