

What is Gears-desk?

What is Gears-desk?

We found a lot of customers still think JIRA is complex after training.

It's very simple that they demand, they only ask to see which issues have been assigned to them, which issues they have done before, which issues they are paying attention, they also want to be able to see which issues were put forward by themselves.

Therefore, Gears-desk is a product on work desktop, which can meet their needs and easy to use.

It's a simple work desktop plugin that only need simple clicks and choices the tab, then you can know the issues status that you care about.

Our customers like this plugin very much, this plugin can make your work easier, so we want popularize it on market to benefit more people.

我们发现很多客户，在对其它培训过Jira之后，他们依然觉得它比较复杂

他们的需求很简单，他们仅仅要求能够看到哪些Issue指派给他们了，他们之前曾经办过哪些Issue，他们正在关注哪些Issue;他们也想能够看到，哪些Issue是由他们提出的。

因此，Gears-desk就是这样一个工作桌面的小产品，满足他们的需求但使用起来并不复杂。

我们的客户很喜欢这个插件，因此我们想将它分布在市场上，让更多的人来使用它；

Now, let's go to see how Gears-desk to work!

1. Log into your JIRA
2. Click the menu My Desk;
3. then you will see the workspace of Gears-desk

现在，让我们去看一下Gears-desk是如何工作的吧

1. 登录到自己的Jira系统
2. 点击菜单My Desk;
3. 然后我们就可以看到Gears-desk的工作空间了

desk

so we will introduce the every tab page to how do use;

Item	decription	
My Backlog	this page will show all issues assigned to you but not unresovled; you can click the key on the header and sort on this question; Duration, that's mean How long has it not been processed since assigned to you	这个界面显示那些指派给你，但未被解决的问题 你可以点击表头的Key列来对这个问题进行排序; Duration的信息意思是，自从这个问题自上个状态指派，共停留了多长时间
My report ed	this page wll show all issues submitted by you; you can search the issue by ceated date, resovled date or issue type	这个界面显示那些由你提交的问题 你可以通过创建时间和解决时间或者问题类型来检索他们
My watchi ng	this page will show all issues that you are paying attention; you can search the issue by ceated date, resovled date or issue type	这个界面显示那些你正在关注的问题 你可以通过创建时间和解决时间或者问题类型来检索他们

My assign eed	<p>this page will show all issues that have been assigned to you, but not include the issue submitted by you or you are the present assignee.</p> <p>you can search the issue by assigne date or issue type</p>	<p>这个界面显示那些你曾经指派给你的问题;这些问题不包括是由你报告的问题以及现在的经办人是你的问题。你可以通过创建时间和解决时间或者问题类型来检索他们</p>
worklog	<p>this page will show worklog item for all the issues you have registered workloge;</p> <p>you can search the issue by worklog time</p>	<p>在这个界面会展示你在所有问题上登记过工时的具体条目你可以通过登记时间来检索他们</p>

Is it very easy?
