

Gears issue export permission

We will support datacenter in the next version, and the app will change the subscription mode.

Affected by this, the app you use will need to subscribe every year, and we will also allow you to use the latest version of the app

For some information we want it to be secure, we just want it to be browsed in jira and not printed or exported.

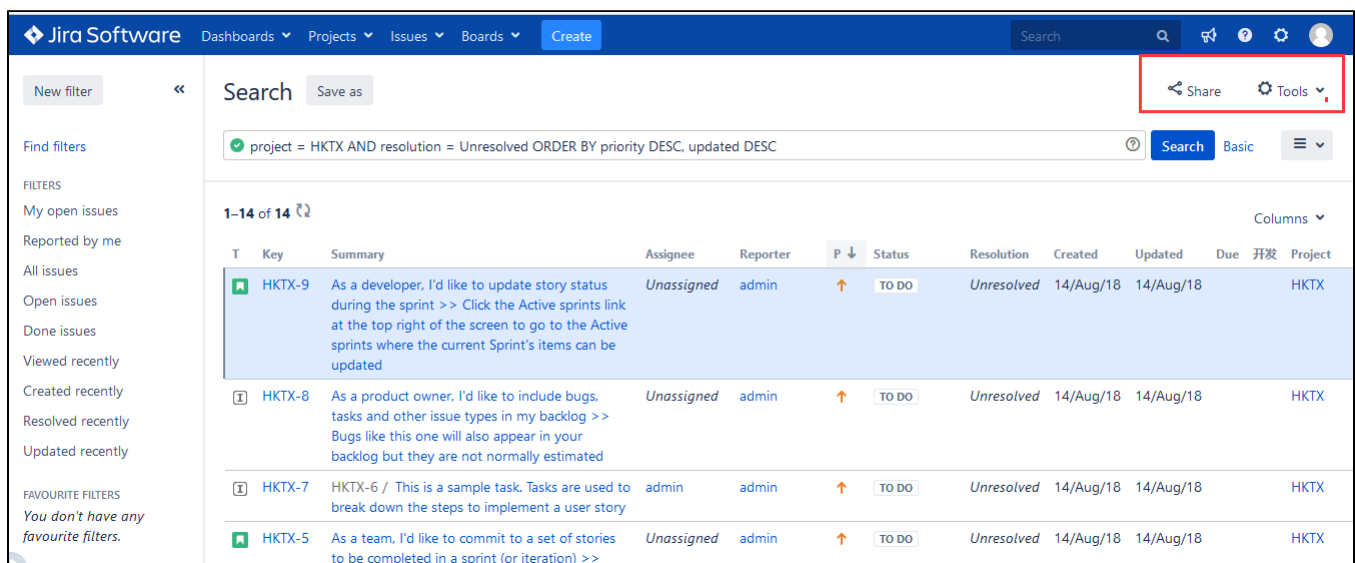

This plug-in can perform the printing or export operations by setting the authorized person.

- User without permission can not export on the issue navigation
- page. User without permission can not export on the issue page.
- When users without permission can export the issues, 403 Forbidden will display on page through URL
- We can configure users or group whom can export

note:

If one user export is disabled, the list of issue displayed on the page by other systems such as confluence will not be displayed

"Export" button is hidden on the navigation page.

The screenshot shows the Jira Software interface. The top navigation bar includes 'Jira Software', 'Dashboards', 'Projects', 'Issues', 'Boards', and a 'Create' button. A search bar is located on the right. The main content area displays search results for the query 'project = HKTX AND resolution = Unresolved ORDER BY priority DESC, updated DESC'. The results are shown in a table with columns: T, Key, Summary, Assignee, Reporter, P, Status, Resolution, Created, Updated, Due, 开发, and Project. The first four rows of results are visible, all with 'Unassigned' status and 'Unresolved' resolution. The 'Export' button is visible in the bottom right corner of the search results table.

T	Key	Summary	Assignee	Reporter	P	Status	Resolution	Created	Updated	Due	开发	Project
	HKTX-9	As a developer, I'd like to update story status during the sprint >> Click the Active sprints link at the top right of the screen to go to the Active sprints where the current Sprint's items can be updated	Unassigned	admin	↑	TO DO	Unresolved	14/Aug/18	14/Aug/18			HKTX
	HKTX-8	As a product owner, I'd like to include bugs, tasks and other issue types in my backlog >> Bugs like this one will also appear in your backlog but they are not normally estimated	Unassigned	admin	↑	TO DO	Unresolved	14/Aug/18	14/Aug/18			HKTX
	HKTX-7	HKTX-6 / This is a sample task. Tasks are used to break down the steps to implement a user story	admin	admin	↑	TO DO	Unresolved	14/Aug/18	14/Aug/18			HKTX
	HKTX-5	As a team, I'd like to commit to a set of stories to be completed in a sprint (or iteration) >>	Unassigned	admin	↑	TO DO	Unresolved	14/Aug/18	14/Aug/18			HKTX

"Export" button is hidden on the issue page.

00-页面中使用JIRA问题和过滤器显示需要的问题列表

Created by gears, last modified by 翁霖 20 minutes ago

本月内Gears项目下完成的Story情况

Key	Summary	Type	Created	Updated	Due	Assignee	Re
Jira project doesn't exist or you don't have permission to view it. View these issues in Jira							

方法

- 通过页面中加入“JIRA问题和过滤器”宏
- 在弹出的界面中选择搜索，在右边的框中填写JQL语句即可（当然，如果我们在JIRA中已经有适合的JQL在这里可以直接填写“filter= 过滤器名字或者ID”）

插入Jira问题/过滤器

搜索

[创建一个新的事项](#)
[最近浏览](#)

☒ 筛选

[其他 JIRA 内容](#)
[Jira 图表](#)

☒ GEARS-310
[经理需要发起一个项目变更](#)

显示结果

当然，如果我们获得了结果，但我们想在页面列表中显示我们需要的字段，此时我们可以在编辑这个宏，在它的右下角点开“显示操作”，在这里我们可以在待显示的列中我们需要显示的列即可
