秋天，无论在什么地方的秋天，总是好的；可是啊，北国的秋，却特别地来得清，来得静，来得悲凉。我的不远千里，要从杭州赶上青岛，更要从青岛赶上北平来的理由，也不过想饱尝一尝这"秋"，这故都的秋味。
Autumn, wherever it is, always has something to recommend itself. In North China, however, it is particularly **limpid**[1], **serene**[2] and **melancholy**[3]. To enjoy its atmosphere to the full in the onetime capital, I have, therefore, made light of travelling a long distance from Hangzhou to Qingdao, and thence to Peiping.

江南，秋当然也是有的，但草木凋得慢，空气来得润，天的颜色显得淡，并且又时常多雨而少风；一个人来在苏州上海杭州，或厦门香港广州的市民中间，浑浑沌沌地过去，只能感到一点点清凉，秋的味，秋的色，秋的意境与姿态，总看不饱，尝不透，赏玩不到十足。秋并不是名花，也并不是美酒，那一种半开，半醉的状态，在领略秋的过程上，是不合适的。
There is of course autumn in the South too, but over there plants **wither**[4] slowly, the air is moist, the sky **pallid**[5], and it is more often rainy than windy. While **muddling**[6] along all by myself among the urban **dwellers**[7] of Suzhou, Shanghai, Xiamen, Hong Kong or Guangzhou, I feel nothing but a little chill in the air, without ever **relishing**[8] to my heart's content the flavour, colour, mood and style of the season. Unlike famous flowers which are most attractive when half opening, good wine which is most **tempting**[9] when one is half drunk, autumn, however, is best appreciated in its entirety.

不逢北国之秋，已将近十余年了。在南方每年到了秋天，总要想陶然亭的芦花，钓鱼台的柳影，西山的虫

How to use

1. Log into your Confluence instance as an admin.
2. Click the admin dropdown and choose **Atlassian Marketplace**. The *Manage add-ons* screen loads.
3. Click **Find new apps** or **Find new add-ons** from the left-hand side of the page.
4. Locate **Gears watermark for Confluence** via search. The appropriate app version appears in the search results.
5. Click **Try free** to begin a new trial or **Buy now** to purchase a license for **Gears watermark for Confluence** . You're prompted to log into MyAtlassian. Gears more permission for Confluence begins to download.
6. Enter your information and click **Generate license** when redirected to MyAtlassian.
7. Click **Apply license**. If you're using an older version of UPM, you can copy and paste the license into your Confluence instance.
8. And then go to : general management -> advanced > watermark settings to config it!
