

03-Worklog on the specified issuetype

Maximum hours one day Earliest date Issue Type Worklog

Standard Issue Type Tips

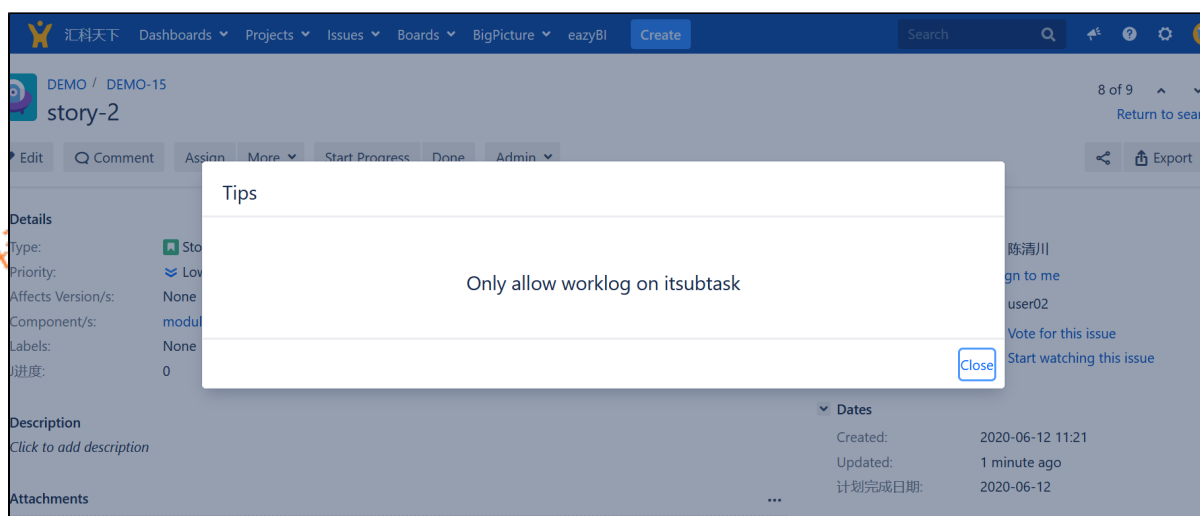

Issue Type	(A)Not allow all	(B)Allow all	(C)Only parent	(D)Only subtask	(E)Not allow parent if have subtask
Epic	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Story	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Bugs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Task	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
require	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Subtask Issue Type Tips

Issue Type	(F)Allow	(G)Not allow	(H)Follow Parent
Subtask	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
subtask1	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

In this page , we set whether it is possible to register working hours for each issuetype in jira, or to worklog according to certain rules.

By setting, we can check the prompt effect of worklog

There are two ways to worklog

- worklog directly on the issue page
- worklog in the pop-up pages of issue workflow

To worklog in to the pop-up pages of workflow, you need to add "Check Worklog" validation.
