07-插件server版本授权说明

Atlassian产品及相关插件遵守采购时的相关服务支持约定，主要内容为：

- 提供一年的技术服务期，允许客户在此期间向产品提供商咨询使用、管理等相关的服务支持。
- 允许最终客户升级到一年技术支持服务期内最新的产品版本
- Server版本为永久授权，可以永久使用。

Atlassian产品及插件的授权说明可以参见：

Eligibility and Software Maintenance

Software maintenance covers access to support and software product updates for the corresponding software license. Refer to your applicable Cloud Terms of Service or Software License Agreement for specific terms of agreement. After the active maintenance period expires, the software will continue to function, but you will no longer be able to access support or software updates (including security bug fixes). Note that starter licenses include community support only.

Support is open to system administrators and account holders. End-users will be redirected to a system administrator.

See Atlassian's bug fixing and Atlassian Security Bug Fix Policy policies for further discussion.
