

03–Enable Groups

The purpose is to make the users in the specified group not use the watermark, other users can see the watermark on the same page

All groups can be enabled.

You can also disable some of the specified groups.

Check the specified groups and click the "add" button, then the watermark function will not be displayed in the page.

if you make the users in specified group use the watermark, you can click the "Remove" button.
