require	○	◉	○	○	○

Subtask Issue Type Tips

Issue Type	(F)Allow	(G)Not allow	(H)Follow Parent
Subtask	○	○	◉
subtask1	○	○	◉

In this page , we set whether it is possible to register working hours for each issuetype in jira, or to worklog according to certain rules.

By setting, we can check the prompt effect of worklog
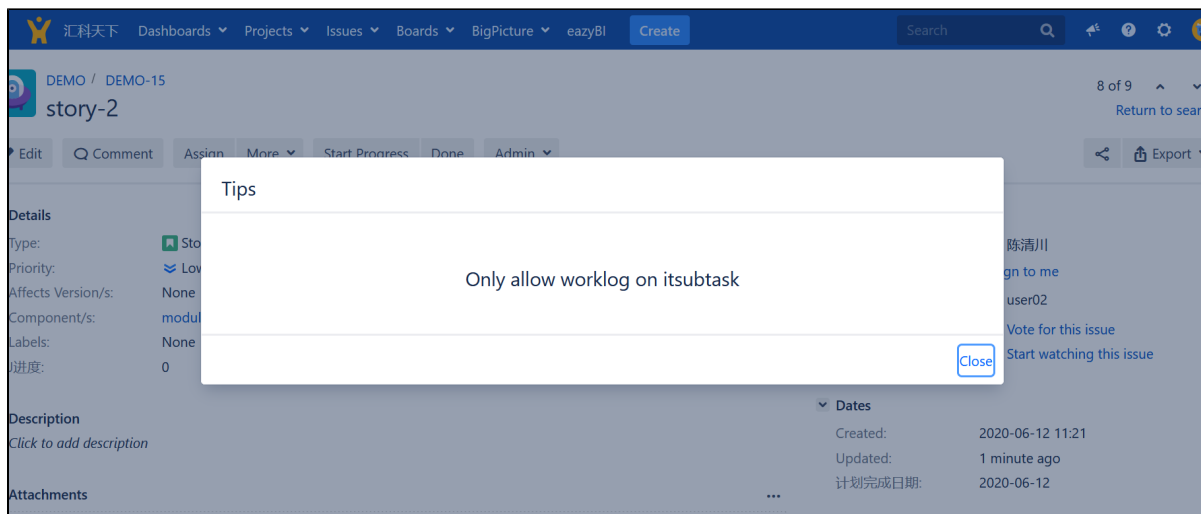

There are two ways to worklog

- worklog directly on the issue page
- worklog in the pop-up pages of issue workflow

To worklog in to the pop-up pages of workflow, you need to add "**Check Worklog**" validation.
