

Gears more permission for confluence

Gears more permission for confluence

Safely manage the attachments in the space, prohibit copying the page through Ctrl C, and manage more operations on the page

and automatically authorize newly created pages

针对特定的空间限定指定用户和用户组不能下载附件、不能通过Ctrl+C方式复制页面及通过“”进行更多操作

对新创建页面自动将指定用户组或者用户授予于编辑和查看权限

The screenshot shows the 'Space Tools' interface in Confluence. The 'Permissions' tab is selected, and the 'Automatic' option is highlighted. The interface includes a sidebar with navigation options like 'Pages', 'Blog', and 'SPACE SHORTCUTS'. The main content area shows settings for 'enable or disable in this space' with radio buttons for 'enable' (selected) and 'disable'. Below this, there are sections for automatically authorizing groups and users for different actions: 'View the page', 'View/Edit the page', and 'View/Edit the page'. Each section has an input field for a group name or username and an 'Add' button. The 'View the page' section shows 'confluence-users' with a 'Remove' button. The 'View/Edit the page' section shows 'confluence-administrators' with a 'Remove' button. The bottom section shows 'user04' with a 'Remove' button.

Automatically authorize the newly created page so that the preset person or group can view and edit it
