

Interface of the gears-userprofile via Restful

you can post the user's extra information by the below URL:

- [BaseURL]/rest/gearsuserprofile/1.0/userprofile/saveUserProfile/{username}/{key}/{value}

Example

- http://jira.hostname.com:8080/rest/gearsuserprofile/1.0/userprofile/saveUserProfile/user04/qq/48239500

we will response the result

```
{
  result:true|false,
  message:"message",
  cannext: true|false,
  value: {},
  strValue:""
}
```
